

## High-speed rail four electric railway system integration of modern technology books

Filesize: 7.31 MB

### **Reviews**

*This pdf will not be simple to start on reading through but extremely enjoyable to see. I have read and i also am sure that i will planning to read through again once more in the foreseeable future. You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).*

**(Mallory Kertzmann V)**

## HIGH-SPEED RAIL FOUR ELECTRIC RAILWAY SYSTEM INTEGRATION OF MODERN TECHNOLOGY BOOKS

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 289 Publisher: Southwest Jiaotong University Pub. Date :2010-04-01 version 1. Currently, the construction of high-speed rail four power systems are integrated with a system construction model. the core system for high-speed railway construction quality and provide a technical. methods. and organizational aspects of the strong protection. The author combines his four power systems integration research and practice. high-speed rail system discussed four power generation and the need for systems integration. systems integration and analysis of the theoretical basis for RAMS. and systematic introduction to a four-power system integration technology solutions and key technologies. interface technology. four electric system RAMS analysis and four power system integration test content. Contents: Chapter 1. four power high-speed rail system integration background and necessity of the construction of high-speed railway in China 1.1 1.1.1 1.1.2 high-speed rail development constitutes a high-speed rail high speed rail needs 1.1.3 1.2 high-speed rail four power system integration 1.2.1 The production of high-speed rail system consists of four power and features of 1.2.2 high-speed rail four power generation system integrated 1.3 high-speed rail four power system integration requirements of 1.3.1 four goals and the need for integrated power system 1.3.2 four the concept of integrated power system power system integration 1.3.3 four target 1.4 four electric integrated construction management system 1.4.1 four EPC electrical system integration 1.4.2 Comprehensive Design Institute for the organizers of the four electric 1.4 turnkey system integration. 3 Institute led the overall integration of the four electric system general contracting 1.5 Summary Chapter 2 Theory 2.1 System Integration System Integration System Integration 2.2 The concept of the theoretical basis for 2.2.1 systems theory. control theory. coordination theory on 2.2.3 integrated 2.2.2 The core...
